

World Otter Day Lunchtime Talk: Adventures of Smooth-coated Otters in NUS and Singapore || 29 May
23 May 2024 || TO NUS Community

Did you know that smooth-coated otters 🦦🦦🦦 returned to Singapore as early as in 1998 after an absence of some three decades?

Learn other fascinating stories about the ecology of otters, their recent escapades right here in NUS, and our undergrad research about them, at this talk by Mr N. Sivasothi, a senior lecturer at the NUS Department of Biological Sciences and a fellow at Ridge View Residential College. Mr Sivasothi, aka “Otterman”, is also part of the Otter Working Group, Singapore. His talk is held in celebration of the International Otter Survival Fund (IOSF) World Otter Day.
