

Take part in the 2024 Net Zero Tech International Contest@ Taiwan || Register by 30 Jun

18 Jun 2024 || TO NUS Students

Calling all NUS students! 📢

Form a team of four or more and take part in the Net Zero Tech International Contest@Taiwan for university students! You have a chance to compete for cash prizes of up to USD\$30,000 (about S\$41,000)! The themes of the contest, organised by TECO Technology Foundation and National Taiwan University, range from renewable energy to energy-saving technologies. ⚡

Register your team [here](#) by 30 June! The preliminary review will be online while finalists stand to win at least a cash prize of USD\$1,500 (about S\$2,000) and an additional travel subsidy of USD\$1,500 to make the journey to the final round at National Taiwan University on 21 August.

Visit the official website [here](#) for more details.

Net Zero Tech

International Contest @ Taiwan
2024 淨零排放科技國際競賽

Innovation Race for Net Zero Challenge

Contest Themes

Net Zero Tech, covering the following technological domains:

- I Renewable Energy (Wind Power, Solar Power, Marine Energy, Geothermal, Hydrogen Energy, Forward-looking Energy...)
- II Advanced Energy Storage Systems, High Efficiency, Low Energy Consumption, Low Carbon Emissions
- III Negative Carbon, Carbon Capture, Storage, and Reutilization Technologies
- IV Electric Vehicles, Energy-saving Motors, Green Transportation
- V Waste Treatment and Purification Technologies, Resource Circulation and Zero Waste, Green Building
- VI Energy-saving Technologies (Production, Manufacturing, Residential and Commercial Buildings, Green Building Design, Life...)

Eligibility

Main Contest: Participants include undergraduate and graduate students from various universities in Taiwan and their respective advisors.
International Contest: Participants include undergraduate and graduate students from universities worldwide, including Taiwan, and their respective advisors.

*Each team should consist of four members or more (including the advisors).
Participants can be from different departments or universities.
Each person is limited to register in one team (no restrictions on advisors).
