

**Compete for up to \$750K Funding on a Global Stage – Join the Asia Green Energy Innovation Challenge 2026 || By 29 Mar**  
**11 Feb 2026 || TO NUS Students**

The world's energy systems are at a turning point—and the next game-changing solution could be yours.

BLOCK71 Singapore, an initiative by NUS Enterprise, has officially opened applications for its Asia Green Energy Innovation Challenge (co-hosted with Tsinghua X-lab). Known for its "founder-first" approach, this program focuses on helping startups move fast, raise smart, and scale globally.

What's in it for you:

- 1 Up to \$750,000 of cash prizes to be won
- 2 Cross border collaboration between Singapore and China
- 3 Full sponsorship for a 1-week programme in Beijing

🚀 5 Challenge Tracks for Maximum Impact:

- 🏠 Energy Storage & Grid Resilience
- ⚡ Smart Grids and Decentralized Systems
- 🌍 Clean Fuels & Industrial Decarbonisation
- 🤖 AI, Digitalisation & Energy Efficiency
- 💡 Circular & Sustainable Energy Systems

📅 Deadline: 29 March 2026
