

From site visit to networking: Don't miss these green opportunities! || 6 Feb, 23 Feb, 7 Mar

3 Feb 2026 || TO NUS Students

Don't miss these upcoming green opportunities!

Join NUS CAT Club for a visit to the Sakra Energy Storage System (ESS) later this month – and enjoy an exclusive facility tour followed by a fireside chat with the Sembcorp team on career pathways in the energy storage sector.

Then in early March, head to the EnviroLink Workshop - ESESC's flagship networking event with Singapore Water Association and EB Impact. Have your resume critiqued by Mr Shaun Kang (NUS Centre for Future-Ready Graduates), join a panel with GPC chair for Sustainability and the Environment Poh Li San and climate resilience consultant Ismail Weiliang, and network with professionals from environmental companies.

Finally, don't forget that the SGFIN Sustainable Finance Case Competition closes this Friday - only three days left. Grab your teammates and register now!

All details below!

**Exclusive site visit to Sembcorp Energy Storage System @Jurong Island
By [NUS Climate Analytics and Technology \(CAT\) Club](#)**

 **23 Feb (Mon)**

 **8.50am – 1pm**
