

Find out how fruit-eating birds shape Singapore's forests in this talk by CNCS || 5 Aug

27 July 2026 || TO NUS Community

Sent on behalf of [NUS Centre for Nature-based Climate Solutions \(CNCS\)](#)

Join ecologist Fung Tze-Kwan as she unveils the fascinating hidden relationships between fruit-eating birds and trees in Singapore's forests, drawing from stories and insights gathered in the field.

The sharing will be followed by a panel discussion featuring experts from academia, the public sector, and nature community. They will discuss Singapore's native birdlife, how research is shaping long-term forest restoration and conservation policy, and how students, staff and everyday citizens can contribute to biodiversity conservation in Singapore.

 **Wed, 5 Aug 2026**

 **3.30pm – 5pm (Registration starts at 3pm)**

 **NUS UHall Auditorium**

Light refreshments will be provided after the event

Winged Gardeners: How Fruit-eating Birds Shape Singapore's Forests

5 AUGUST 2026
3.00 PM - 5.00 PM
NUS UNIVERSITY HALL AUDITORIUM
University Hall, Level 2
21 Lower Kent Ridge Rd, Singapore 119077

Sharing by:

Fung Tze Kwan
Doctoral Candidate,
NUS CNCS

Want to learn more about our winged gardeners? Join us for an insightful afternoon about native bird species and how their fruit-eating behaviour helps local ecosystems flourish!

Panelists:

Dr. Chong Kwek Yan
Deputy Director, Forest Ecology, NParks

Dr. Movin Nyanasengeran
President,
Bird Society of Singapore

Moderated by:

Dr. Charles Marsh
Research Fellow,
NUS CNCS
